LTN1565

15” LCD TV with Multi-Media PC/DVD/TV Inputs

Samsung’s new generation of LCD TV’s with Multimedia PC/DVD/TV inputs represent the ultimate in flexibility, picture quality and style. Available in a range of sizes and styles to compliment your needs anywhere in your home, these powerful sets can be used as an HDTV monitor or just to watch the evening news. At just a few inches thick and under 9 lbs. these products small size belies their powerful capabilities.

The LTN1565 model also incorporates dual component video inputs for a digital set-top box and DVD player. Dual purpose use allows for the easy connection of a PC so you can view PC and TV images simultaneously.

LCD LTN1565

15” LCD TV with Multi-Media PC/DVD/TV Inputs

Rear Jack Panels

SPECIFICATIONS

1024 x 768 Pixel Resolution. High resolution pixel density with built in image scaler to handle inputs from a variety of digital or analog A/V or PC sources.

400:1 Contrast Ratio/450 cd/m² Brightness. Two of the most important determining factors in overall picture quality, the contrast and brightness levels achieve new heights in these latest generation LCD panels. Samsung’s new LCD TV’s give the most stunning realistic picture quality ever from a flat panel set.

PC Picture-In-Picture allows you to watch video/TV while working on the PC.

Digital Comb Filter minimizes edge image artifacts while improving transition detail.

Improved Cable Management. Regardless of where you place your new LCD TV, you’ll be able to route the A/V and RF cables more neatly, keeping them out of sight with a hinged door.

V-Chip System[1] allows blocking of rated TV and movie programs determined by the parent to contain objectionable content.

PC (RGB) Inputs 15 Pin D-Sub. LCD TV can also be use as a PC monitor using this connector.

Trilingual On-Screen Displays in English, Spanish and French.

Color Temperature Control Normal, Warm and Cool selectable with On-Screen Display.

Closed Caption[1] **(CC)** displays dialog that can be read along with encoded broadcast TV programs and pre-recorded videos.

Screen Capture Picture Freezing stops the action as a still frame.
